EXPERIENCE

Full Stack Developer

Doppler Trade PVT LTD

2025 - Present

- Focused on enhancing user experience by balancing functionality with clean, intuitive UI design.
- Worked on an Internet Service Provider (ISP) platform that delivers internet access via hotspot vouchers.
- Set up and managed router configurations using Winbox for seamless FreeRADIUS authentication testing and integration.
- Acquired hands-on experience in VPS hosting through aaPanel on an Ubuntu server.
- Handled domain configurations, database setup, and server-side optimizations.

Flutter Developer

PizzBizz

01/2024 - 12/2024

- Utilized Flutter for a dynamic UI and Firebase for seamless data handling, including real-time user interactions and media uploads
- Designed and implemented features like pizza customization, social sharing, and in-app payments using eSewa integration
- Led the design and development of the PizzBizz mobile app, a platform combining pizza customization and social engagement

IT Intern

Vedas College

01/2022 - 12/2024

- Assisted in the installation and configuration of software applications, ensuring compatibility and functionality
- Helped faculty members and students with technical issues related to educational software and online platforms

Web Developer

FlexiHire

2022 - 2023

- Led the FlexiHire website development, managing timelines and team coordination
- Developed both front-end and back-end using React and firebase, ensuring a responsive user experience
- Designed user interfaces focused on usability and visual appeal; iterating based on feedback

EDUCATION

School Leaving Certificate Exam

Milestone International College

2017 - 2019

Bachelors in Computer Application

Vedas College

2020 - Present

SUMMARY

Full Stack Developer with a strong focus on frontend development using React, Flutter, and .NET API integrations. Experienced in VPS hosting with aaPanel on Ubuntu, and skilled in FreeRADIUS for ISP system implementation. I excel at balancing functionality with clean, user-friendly design to create seamless web applications and efficient backend processes.
